

Do Not Procrastinate...

Scripture Reading: Matthew 6:25-35, Proverbs 27:1

God has given "today" in our hands. "Yesterday" is past and over. We can never have a plan for our "Yesterday". It's dead and gone. The "Tomorrow" is yet to come alive. We can never know what awaits "Tomorrow". We have so many plans. We say, "I will do this, I will be like this, etc". But we should first focus on rightly using the "Today" that God has given in our hands. Do not postpone today's work to tomorrow. Yesterday is the money that is spent! Tomorrow is the money that's in the bank! Today is the money you have in hand! Plan to properly spend the money that's given in your hands.

A man was travelling in his car and he saw a person selling cotton sweet candy on his cycle. He stopped his car and bought 3 packs of it. He asked the person, "Sir, what's your name?" he replied "My name is Kumar". He wakes up early each day and prepares Cotton Sweet Candy on his small motor and takes it to sell in the nearby villages. He said that he will return home each day only after all the cotton candies are sold. He will never use a day's candy for the next day. He said that he has never wasted a day.

The work that you do today will surely bear fruits. 'Today' is the greatest day of your life. You might have great plans for life. But each day's small efforts will lead you to fulfill it.

Think about yourself. Do you finish your homework each day? Do you revise your everyday's study portions? Do you do that which your parents ask you to do? Do you fulfill your responsibilities towards God in the right time?

Questions:

1. Regarding what should we not worry?
2. What is yesterday, today and tomorrow compared to?
3. What is "Today" for us?
